Two streams of this course will be run: the day stream (2-5 pm) and night stream (6 – 9 pm). A common test and final exam will be held for both streams.

Lecturer in charge:

Dr. Peter Pham
QUAD3040
Extension: 5952
Email: p.pham@unsw.edu.au

Time and Location:
Day lecture: Tuesday 2-5 pm QUAD 1027
Night lecture: Tuesday 6-9 pm MURPHY THEATRE

Tutorials and lectures are combined in 3-hour blocks. Each tutorial is approximately one hour and deals with topics discussed in the previous week’s lecture. Students MUST review the last lecture and attempt the questions before the tutorial.

Introduction

Corporate Finance is an introductory course in financial management. It stresses the modern fundamentals of corporate financial decision making with special reference to investment, financing and dividend distribution. While building upon introductory courses in accounting, economics and quantitative analysis the course develops distinctive conceptual frameworks and specialised tools for solving real world financial problems at both the individual and corporate level. The course is a blend of theory and practice. While diligent practice will make you competent in financial techniques, a good grasp of theory will help you think systematically about ways to solve a problem for which no existing technique is suitable or available.

Specific topics to be covered include: financial mathematics, security valuation, techniques for capital investment decisions, financial decision making under uncertainty (portfolio theory and capital market theory), corporate capital structure, cost of capital, dividend decision and policy, options and corporate finance.

Subject objectives
FINS5511 Corporate Finance seeks to develop your skills and knowledge in the following areas of financial management:

- consumption and investment decision under certainty
- valuation of corporate securities
- capital budgeting under certainty
- capital budgeting under uncertainty
- concept of risk
- portfolio theory
- capital asset pricing theory
- cost of capital
- corporate capital structure decision
• dividend decision and policy
• equity issues and initial public offers
• options and corporate finance

Assessment
Test : 30%
Final exam: 70%

Questions in the test and the final examination include multiple choice and essay types. Students are referred to the last section of this course outline and should be fully aware of their commitments. For example, work commitment is not a valid ground for special consideration.

Prescribed textbooks

School of Banking and Finance, FINS5511 Corporate Finance Course Materials, 2004 (A collection of articles on corporate finance).

While concentrating on the textbook should be the primary task it should be noted that this is a course at the Master level, students are expected to approach study as befitting Master students (in contrast to undergraduate students). Lectures/tutorials should not be taken as ‘be all and end all’. No class at the Master/postgraduate level can/should be conducted in this fashion. In this light some references are provided in the following section.

Other References

Some articles in this book are examinable. While the book refers to the articles being drawn from Journal of Applied Corporate Finance (held in UNSW Library - SQ658.1505/10) it makes no mention of specific issues. Students may like to browse through this Journal to identify and read the articles recommended for this course. The Corporate Finance Course Materials, 2003 also contains the original versions of some of these articles. Alternatively the book is available from UNSW Bookshop where 30 copies are held in stock.

In addition, students are expected to read the financial press regularly e.g. Australian Financial Review, Sydney Morning Herald, Business Review Week etc.
COURSE OUTLINE

Week 1: 1 – 5 March
Introduction to corporate finance

Prescribed readings:
Ross, Ch. 1
Course Material Article 1: Stern Stewart roundtable on relationship investing and shareholder communication, pp. 65-95

Week 2: 8 – 12 March
Financial Maths

Week 3: 15 – 19 March
Security Valuation

Special considerations, supplementary examination, academic misconduct

Rules of special considerations, supplementary examination, academic misconduct etc… are published on UNSW website student gateway and the School of Banking website (http://banking.web.unsw.edu.au). Applications must be supported by written evidence e.g. medical certificate and be lodged within three days following the test/exam date. Decisions on these matters are made by Faculty Assessment Committee. As a rule there are two grades (Pass/Fail) in a supplementary exam.
Test date and final examination date cannot be varied. Work commitment is not a valid cause for requesting a test/examination on a date other than those specified for the class.
Covering three distinct themes: Banking, Finance and Investment, this degree will allow you the opportunity to gain an in-depth knowledge in a variety of contexts, from investing and trading in equity markets, international financial markets, corporate finance theory and banking in an international context. You’ll have access to our excellent facilities, including trading room facilities, simulation software and market data used in the finance sector providing an added dimension to your learning. 2020. 2021. Students have access to a wide range of resources including textbooks, publications, and computers in the University’s library and via online resources. In most cases they are more than sufficient to complete a course of study. Explore the current course outline for FINS5511 Corporate Finance for information on how each course was structured, assessment details, resources, key policies and support. Monitoring of online examinations will be conducted directly by the University or by third party providers on behalf of the University, such providers being bound by the University's privacy and security requirements. The School of Banking and Finance supports the concept to leave the course lecturer-in-charge to stipulate a penalty of 0 to 10% of the percentage weight of the assessment component or part thereof per day. Details of such penalties will be available on the course Moodle page.
