- Instruments – according to the list given in the first week of studies in the lecture (in the first study year)
- Artificial teeth for phantom
- Gloves, masks, white working dress (everything according to the rules of practical trainings)
Tufts University School of Dental Medicine offers a one-year Fellowship program in Implant Dentistry. This advanced graduate level program will include all important aspects of implant dentistry: diagnosis and treatment planning, surgical and final restorative stages of implant dentistry, understanding of surgical therapies and implant placement in selected cases. The program is supported by relevant didactic courses, seminars, and workshops. It is one year long and runs from July 1 to June 30 of the following year. Course of Study. During their curriculum, fellows will be trained to: Diagnose cases; Identify complex cases that must be referred to other specialty departments.
