History 10

History 10 is designed to allow students to better understand history by examining in great detail the modern era leading up to the 20th century. Specifically, the first semester of the course covers the Renaissance, the early Global Age, the Enlightenment, the Industrial Revolution, the Rise of Democracies, Imperialism and the modernization of Japan.

The second semester of the course covers World War I, the rise of totalitarianism, World War II, The Cold War, emerging nations, and the modern world we know today. Students come away with a better understanding of how history unfolds and the critical impact made by individuals.

This is primarily a writing course and students will learn to express their formed opinions with proper formatting, spelling and grammar. In addition, students will acquire the necessary skills for accessing information and communicating their comprehension of the material.

Further, the resources of this text frequently require students to take a position and justify it using the information in the text. They also learn test taking skills.

There will be several assessments such as worksheets and activities on a daily basis, vocabulary quizzes, projects and exams.

The textbook for this course is *World History The Modern Era* and was selected because it is ideally suited for TIPS students so they can meet the challenges of upper level social studies classes.
